

## How to do Bookmark Action in Power BI ?

To add a bookmark in Power BI, you can follow these steps:

1. Navigate to the page in your report where you want to add a bookmark.
2. Click on the "Bookmark" button on the "Visualizations" pane on the right side of the screen. Alternatively, you can also click on the "Bookmark" button on the "View" tab on the ribbon menu.
3. Give your bookmark a name that is easy to remember and describes the content of the page.
4. Select the options you want to include in your bookmark. You can choose to save the current page state, the filters applied, the slicers applied, and the drill-down levels.
5. Click on the "Add" button to save your bookmark.

Once you have added a bookmark, you can use it to quickly navigate to that page or state in your report. To do so, you can click on the "Bookmark" button on the "Visualizations" pane or "View" tab and select the bookmark you want to navigate to.
